

ARCHIE STILL

A passionate and enthusiastic worker, skilled in working with others and adept in improvisation and making quick decisions.

EDUCATION

BSc (Hons) Games Technology - University of the West of England, Bristol: September 2022 – July 2025

I graduated from UWE Bristol with a First, as well as having achieved a First for all of my final year modules.

Additionally, I was awarded the '*Outstanding TIGA Graduate of the Year Award – Games Technology*' for my work, putting me on par with first-rate graduates from other leading game design universities in the UK.

Whilst being in my final year, I had also taken up the role of *Student Representative* for the rest of the year group.

A-Levels - Hereford Sixth Form College: September 2020 – July 2022

Cyber Security and Games Development: Distinction

Media Production: Merit

English Language: C

Extended Project Qualification: C

EXPERIENCE

MultiPlay Network: August 2024 – January 2025

I researched and wrote a 7000-word peer-reviewed paper to be published in an academic journal on the subject of asexuality and its representation in video games.

While not contracted work, it provided ample support for skills in academic writing and working within deadlines.

Senior PAL Leader/PAL Leader: September 2023 – May 2025

PAL is a scheme at UWE Bristol allowing for students to tutor and assist in the learning of previous years. Brought on as PAL leader from 2023-2024, I was promoted to Senior PAL Leader for 2024-2025, overseeing other PAL Leaders instead of students.

While undergoing my role as PAL Leader, I was also awarded an *ILM Level 3 Award in Effective Mentoring* for my ability to effectively plan and act out mentoring sessions with peers and students.

Pilgrims English Language Courses: July – August 2024

I worked alongside others to help run a summer school for international students aged 8-16, planning and supervising activities such as sporting events, trips into London and my own brief game design lessons.
